Ouedraogo, Constant

Sponsorship/mo: \$25.00

Constant was about 10 years of age at the time of our visit in March of 2009 – no one seemed sure of his age, but he was in his 3rd or 4th year of school. Constant is a different case from our others because he still has both parents; however his father doesn't seem to be mentally well. They had 5 children, but 3 of them have died. Currently, the youngest is 2 years of age, a girl named Denise; and Constant is the oldest.

They live in a section of the town of Yako known as Sector 2. Their home is a simple mud brick hut and it is not in good repair. They do not have the typical courtyard wall to give them privacy and protection – the previous wall has crumbled. They have no animals, of course no electricity and their water comes from a nearby pump. Mom and Dad work together to farm a field of millet in order to provide for the family.

With a sponsor, we can develop relationship with this family and help the parents provide better care for their children.
